Art Unit: 3624

1. Restriction to one of the following inventions is required under 35 U.S.C. 121:

- Claims 1-12 are, drawn to a querying system, classified in class 705, subclass 37.
- II. Claims 13-32 are, drawn to a receiving an indication selection system, classified in class 705, subclass 37.
- III. Claims 32-43 are, drawn to a retrieving a plurality of indications system, classified in class 705, subclass 37.

The inventions are distinct, each from the other because of the following reasons:

- 2. Inventions I and II are unrelated. Inventions are unrelated if it can be shown that they are not disclosed as capable of use together and they have different modes of operation, different functions, or different effects (MPEP § 806.04, MPEP § 808.01). In the instant case the different inventions have different effects.
- 3. Inventions I and III are unrelated. Inventions are unrelated if it can be shown that they are not disclosed as capable of use together and they have different modes of operation, different functions, or different effects (MPEP § 806.04, MPEP § 808.01). In the instant case the different inventions have different effects
- 4. Inventions II and III are unrelated. Inventions are unrelated if it can be shown that they are not disclosed as capable of use together and they have different modes of operation, different functions, or different effects (MPEP § 806.04, MPEP § 808.01). In the instant case the different inventions have different effects.

Application/Control Number: 09/764,574 Page 3

Art Unit: 3624

5. Because these inventions are distinct for the reasons given above and the search required for Group I is not required for Group II or III, restriction for examination

purposes as indicated is proper.

6. A telephone call was made to request an oral election to the above restriction

requirement, but did not result in an election being made.

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

Respectfully

Ву,

Rich Weisberger
